

**SULAV**  
ELECTRIC & BOARD

Established in 2014 and gained preference and distinction According to all of those who are working in the field, the company is also classified as the first in its field.

Since its inception, it has specialized in manufacturing and installing electrical boards for homes, residential complexes, hospitals, laboratories, and factories.

It provides engineering design services for boards with extensive study before proceeding to manufacture, taking into account the size of the board that is most suitable for its designated place and the quality of materials used in the project in consultation with the project owner, at the most appropriate costs, best quality and in the fastest time.

## WHO WE ARE

---

At Sulav Electric & Board, we are a trusted provider of high-quality electrical solutions, specializing in the design, manufacturing, and installation of electric boards. Since our founding in 2014, we have been dedicated to delivering precision, innovation, and reliability to our clients across various sectors, including residential, commercial, industrial, and healthcare.

# STRATEGY

---

## INNOVATION

We are committed to staying ahead of the curve by continuously embracing cutting-edge technologies and forward-thinking practices. By fostering a culture of innovation, we ensure that our products and services not only meet current demands but also anticipate future needs, providing our clients with advanced, reliable, and efficient solutions.

## QUALITY

Quality is the foundation of everything we do. From the manufacturing process to installation, we adhere to the highest standards, ensuring that our electric boards are safe, durable, and precise. Our unwavering commitment to quality guarantees that our clients receive the best possible products and services.

## SUSTAINABILITY

We are dedicated to creating sustainable solutions that have a positive impact on the environment. Our focus on energy efficiency and environmentally friendly practices drives us to design and implement systems that reduce waste, conserve resources, and contribute to a greener future for all.

## MISSION

Our mission is to provide reliable, high-performance electrical solutions. We are committed to excellence, and are constantly improving our products and services to ensure we meet evolving requirements.

# HEALTH AND SAFETY

---

At Sulav Electric & Board, health and safety are our top priorities. We are committed to maintaining the highest safety standards in every aspect of our work, from manufacturing to installation. Our team is trained to follow rigorous safety protocols, ensuring that our products and services are not only efficient but also safe for our clients, employees, and the communities we serve.

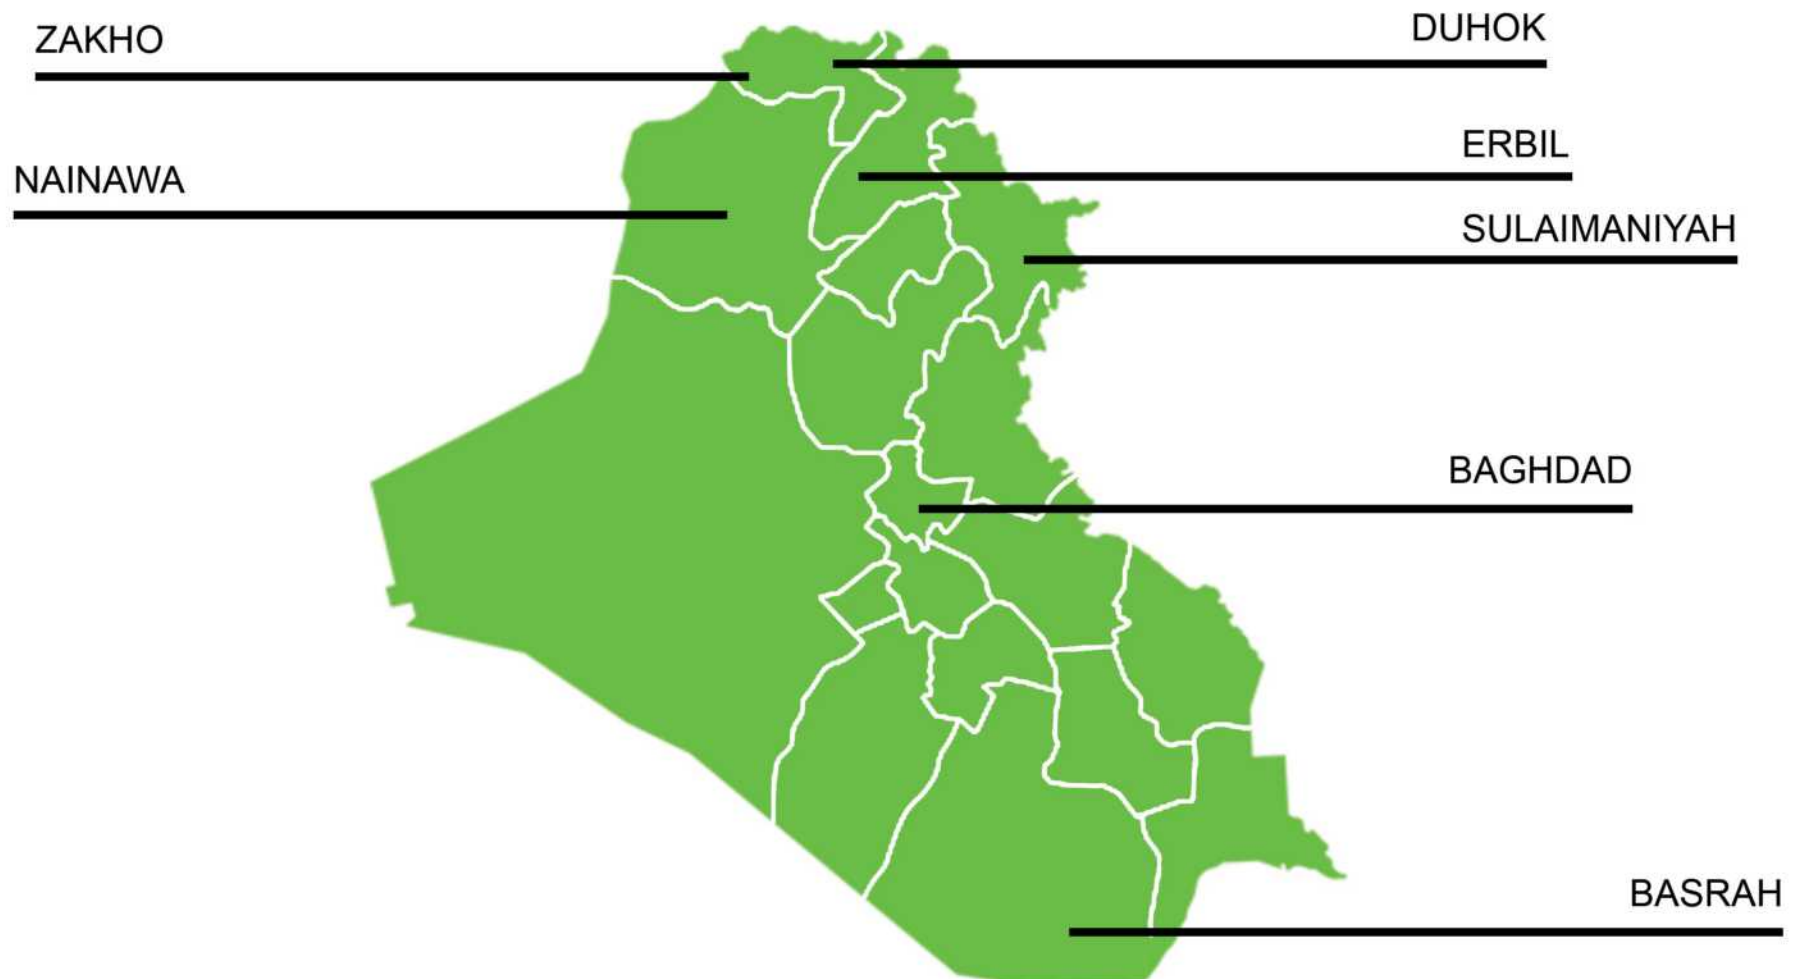

# PLACES OF WORK

---

We are proud to offer our specialized solutions in the Kurdistan Region, Iraq and beyond. Our specialized services ensure that every project, whether in residential, commercial, or industrial settings, receives top-quality electrical installations tailored to the unique needs of each location.

## OUR BRANDS

---

At Sulav Electric & Board, we prioritize quality and reliability in every project, which is why we source our materials from some of the most trusted brands in the electrical industry. We partner with leading global and regional suppliers known for their innovative products, durability, and safety standards. These brands provide us with the high-grade components necessary to ensure the longevity and efficiency of our electrical boards, panels, and systems. By using materials from reputable brands, we guarantee that our clients receive the best possible solutions for their electrical needs.

VATAN  
KABLO

# OUR CLIENTS

At Sulav Electric & Board, our clients are at the heart of everything we do. We are proud to serve a diverse range of customers, including homeowners, residential complexes, hospitals, laboratories, factories, and businesses across various sectors. Our commitment to delivering high-quality, reliable electrical solutions has earned us the trust of clients throughout the Kurdistan Region and Iraq.

# FIELD OF WORK

---

Manufacturing and Installation  
of Electrical Panels

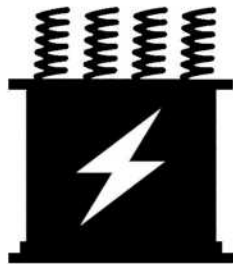

Extending Cables of All Sizes

Repairing Electrical Panels

Selling All Industrial Materials  
and Supplies

Establishing an Electrical  
System for Factories and  
Buildings

# STEPS OF WORK

---

- | Discuss all the work details required for the project with the specialists.
- | Helping professionals by giving them multiple ideas and options about the work required.
- | Submit an engineering drawing before starting work.
- | Turning the idea into reality.
- | Change and add new paragraphs as requested by the project owner or as required by the work.

## OUR SERVICES

---

- | Manufacturing and installation of electrical boards.
- | Providing a wide range of services.
- | Installing, changing and connecting cables.
- | Design and construction of primary substations.
- | Design and construct the cable tunnels.
- | Electrical installations.

## WHY CHOOSE US

---

- | We work for values, not just materialistic matters.
- | Punctuality.
- | Customer satisfaction.

- | We are the safest for your project.
- | We care about quality, not quantity.
- | Accuracy in work.

## MANUFACTURING AND INSTALLATION OF ELECTRICAL PANELS.

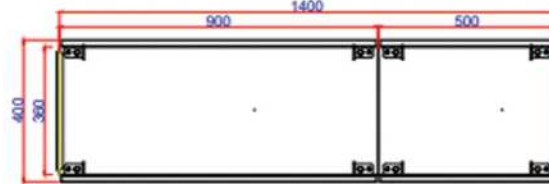

---

At Sulav Electric & Board, we specialize in the manufacturing and installation of high-quality electrical boards tailored to meet the specific needs of a wide range of applications. Our electrical boards are designed with precision and built using top-grade materials from trusted brands to ensure safety, durability, and efficiency.

# ELECTRICAL SUBSTATIONS

---

We provide design, construction and maintenance services of electrical substations according to engineering standards. We have an expert team who provides technical support and guidance to ensure that our customers' needs are met with the highest levels of efficiency and safety.

We convert electrical voltage from high levels (such as 110kV or 220kV) to lower levels (such as 11kV or 400V) to safely distribute it to consumers.

# UNDERGROUND CABLING

---

We constructed electrical equipment and manufacturing Electrical Boards for many projects. Including small and large Facilities, Hospitals, Universities, Commercial and Residential Stores, and Government buildings...
